

Multi-purpose elasticated tubular bandage

How Tubigrip® works

Tubigrip® provides lasting, effective support with complete freedom of movement for the patient. Once the bandage has been applied, covered elastic threads within the fabric move to adjust to the contours of the body and distribute pressure evenly over the surface. Product application is quick and easy.

Tubigrip® stays securely in position without pins or tapes, unlike conventional bandages. Tubigrip® can easily be reapplied after washing, without loss of effect.

Tubigrip® 10m helps reduce waste, as only the exact amount required is cut from the roll.

Tubigrip® 10m is available in two shades – natural and beige.

Tubigrip® measuring guides are available to help you select the appropriate size and level of support for the condition being treated.

Benefits of Tubigrip®

- Provides comfortable, effective tissue support
- Easy to apply and reapply
- Full range of sizes to suit most applications
- No pins or tapes needed
- Washable and reusable
- Choice of two colors (10m only)

Areas of use

Tubigrip® provides tissue support in the treatment of strains and sprains, soft tissue injuries, general edema, post-burn scarring, and ribcage injuries.

Material properties

Viscose, Elastane and Polyamide
