

# NEW UPDATED CORSINEL BELT WITH PANEL

## INTRODUCTION

**Welcome to the unveiling of our new updated product in our Corsinel – Ostomy Care by Tytex range Belt with Panel.**

Specially developed with the needs of Ostomates with or at risk of a Hernia, as a focal point, the belt is designed with comfort, security, and discretion in mind with the continued focus to improve quality of life for ostomates every day.

## FEATURES

**Superior Support:** Provides superior hernia support with 4-way-stretch for perfect adaption to body contour giving freedom of movement and optimal hernia support.

**Easily Customizable:** Reinforced front panel for cutting individual hole for Stoma pouch–Easy to follow template included.

**Secure Fit:** Hand pocket for easy application. Silicone anti-slip pattern at the top and bottom band securing that the stays in place giving the user peace of mind and confidence in their stoma care.

**Highest User Comfort & Tested:** Tested for harmful substances according to OEKO-TEX STANDARD 100 and 100% seamless knitting.

**Easy Maintenance:** Machine washable making it convenient to clean and maintain hygiene standards.

**Comfortable Wear:** Soft, seamless, and breathable for high comfort all-day use.

## BENEFITS

**Support and Protection:** Belt with Panel helps compress the area around the stoma or hernia, reducing bulges and offering support to the hernia. The compression provided also helps resist protrusion of the abdominal cavity

**Enhanced Pouch Discretion:** Belt with Panel offers a smoother profile under clothing, providing peace of mind and discretion to the wearer.

**Alleviation of Discomfort:** Belt with Panel reduces discomfort associated with hernias by providing support and minimizing pressure of hernia sensations, enhancing overall comfort.
